

Birth Doula

PHILOSOPHY

The word doula is Greek, meaning 'woman who serves', and the role is as ancient as birth itself. 'Mothering the mother' is part of our innate birthing wisdom. A doula is 'with woman' to witness, nurture and comfort her as she brings new life into the world.

Undisturbed birth is dependent on you feeling safe and powerful. My role as a doula is to hold space for you and the birth of your baby and make sure all your choices are informed decisions aligned with your values. I will encourage, inspire, educate, support and nurture you through your pregnancy and childbirth process, mind, body, heart and soul.

I know birth to be a normal and natural event that has a deep and lasting impact on the lives of the woman and baby. I am an advocate of your own choices and experience. I will never make decisions for you but will empower and support the labour and birth options you choose for yourself.
